

Hydration & Moisture

Native Collagen Mask Hyaluronic Acid

Hydrate and plump your skin with native collagen and Hyaluronic Acid for a smoother, firmer look.

The Native Collagen Mask Hyaluronic Acid combines 92% native collagen with Hyaluronic Acid to deeply hydrate and plump the skin. This mask smooths fine lines and wrinkles, improves skin elasticity, and enhances skin texture.

Hyaluronic Acid binds up to 4000 times its weight in moisture, filling and firming the skin from within. It retains moisture, harmonizes skin tone, and soothes irritated skin, leaving the complexion revitalized, smooth, and glowing.

Skin Concerns

- Dehydrated skin
- Fine lines and wrinkles
- Uneven skin tone
- Irritated skin

The Benefits

- Deeply hydrates and plumps the skin with 92% native collagen and Hyaluronic Acid.
- Improves skin elasticity, smooths texture, and retains moisture for a rejuvenated appearance.

Native Collagen Mask Hyaluronic Acid

Active Ingredients

Native Collagen Fibres: Form a three-dimensional network. The highly concentrated native collagen has a high waterbinding capacity, ensuring a continuous supply of the active ingredients and an intensive moisture transfer to the skin.

Native Collagen Peptides: Stimulate collagen production, promoting skin regeneration and reducing wrinkles.

Native Collagen Molecules: Strengthen the skin's moisture-binding capacity, ensuring a healthy, balanced surface.

Hyaluronic Acid (Sodium Hyaluronate): Binds up to 4000x its weight in moisture, plumping the skin and enhancing firmness. It is one key part of the connective tissue filling gaps between skin cells. It acts as a gel cushion by padding the skin from within, providing skin volume and make it look firmer.

INCI

Collagen · Hydrogenated Polyisobutene · PPG-15 Stearyl Ether · PEG-40 Sorbitan Peroleate · Di-C12-13 Alkyl Malate · Sodium Hyaluronate · BHT · CI 77510 (Ferric Ammonium Ferrocyanide)

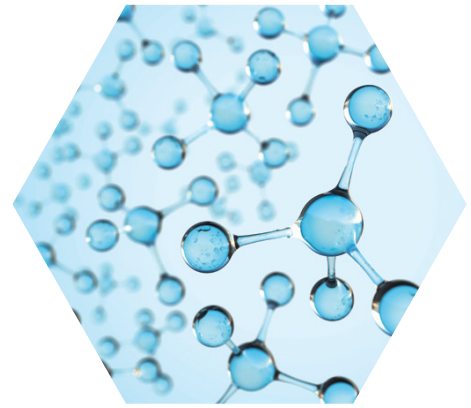

Scientific Data

- +59%** Increase in skin moisture (Corneometry, activated with Activation Liquid 17SF)¹
- 38%** Decrease in skin roughness (PRIMOS, activated with Activation Liquid 17SF)¹
- 27%** Reduction of redness (Chromometry, activated with water)²
